## **DETAILED OFFICE ACTION**

## Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-28, drawn to an egg cleaning kit, classified in class 99, subclass 495.
- II. Claims 29-35, drawn to a method of treating a raw egg, classified in class 426, subclass 665.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as method/process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the

√Application/Control Number: 09/334,475

Art Unit: 1761

method/process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different method/process. (MPEP § 806.05(e)). In this case, the method as claimed can be practiced by another materially different apparatus without the specifics of the Group I apparatus i.e. nozzle, container, etc.

Page 3

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete **must** include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1761

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0661.
